DATE DISTR. 17 Dec 1948

NO. OF PAGES 1

NO. OF ENCLS.
(LISTED BELOW)

SUPPLEMENT TO
REPORT NO.

1. In the Klinzi area, near Kotor, a wireless station with a power of 2.5 kw has been installed in a small forest. Another station of the same power has been installed in the Maddalena suburb of Sibenik. Both stations operate on medium and long wave lengths. This supports the belief that these stations use old equipment and that they are used either for army or navy messages or for internal propaganda.
2. A plan to move the Fiume torpedo factory near Split in the event of war has been reported. The Romsa oil factory would make the same change. The Voce del Popolo printing plant is scheduled to move to a small interior village, probably Pazin.
